Desktop safes

AWA Exclusive Edition **Always Alert Safe**

The smart safe that sends alerts to the smartphone in case of any attack attemps.

THEFT PROTECTION
- The AWA safe uses Wi-Fi network to send alerts to your smartphone about external threats **(burglar attemps, fire, floods, safe opening under coercion, connection loss...)**

- This is a **high security** safe, with a 10 mm thick reinforced front with a 3 mm anti-drill plate; perimeter lock with anti-saw bolts and anti-lever system.

HACK PROTECTION
- The safe stores and **encrypts the opening codes internally; codes are not shared in the cloud.**
- Safe **opening is done face-to-face via BLE.**

EASY TO USE
- Open the safe by entering the code on the safe's keypad, or using a smartphone with a user-friendly and intuitive app.
- **The app allows** the administrator of the safe to**:**
  - **Manage users and permissions:** up to 9 users can be authorised, with the option to allocate different opening ranges to each one (by time slots, days of the week...)
  - **Receive alerts** about burglar attemps.
  - **Access the safe's log** (record of openings and closings, alerts...)
  - **Manage delayed opening.**
  - **Remote management.**
 - **Establish a coercion code.**

Wi-Fi network is used to send alerts to your smartphone in case of external threats

BLE (Bluetooth Low Energy) is used to open and manage the safe.
